

CURRICULUM VITAE

Name: Athanasia Mouzaki

Address at work: Laboratory of Immunohematology, Division of Hematology, Dpt. of Internal Medicine, Faculty of Medicine, School of Health Sciences, University of Patras, Asklepiou street, Panepistimioupolis, Rion, Patras GR-26500, Greece. E-mail: mouzaki@upatras.gr

Education:

1977: High School Diploma (2nd Lyceon for Girls, Patras, GR).

1979: General Certificates of Education (GCEs) in Chemistry, Physics, Mathematics and English (Cambridge Board, UK).

1983: Bachelor's degree (B.Sc. with Honors) in Biological Sciences (Major: Physiology, Specialization: Cellular Toxicology) (University of Plymouth, UK). Diploma thesis: "Response of the lymphoid organs of the laboratory mouse to Plasmodium yoelli infection".

1985: Master's degree (MSc.) in Biological Sciences (Immunology) (University of Salford, UK). MSc thesis: "Gasterosteus aculeatus, Linnaeus: The lymphoid system, diseases and ecological correlates".

1988: Doctor of Philosophy (Ph.D.) (University of Salford, UK & Free University of Berlin, DE). Ph.D. thesis: "The rat receptor for Interleukin-2".

Positions/Teaching appointments:

1983-1985: Part-time lecturer and demonstrator, Laboratory of Immunology, University of Salford, Greater Manchester, UK.

1985-1987: Research assistant, Institute of Immunology, Medical School & Klinikum Steglitz, Berlin, DE.

1987-1990: Assistante post-doctorante, Dpt. of Molecular Biology, University of Geneva, Geneva, CH.

1991-1992: Assistante post-doctorante, Div. of Hematology, Medical School & University Hospital, Geneva, CH.

1992-1995: Maitre Assistante, Div. of Hematology, Medical School & University Hospital, Geneva, CH.

1995-1997: Lecturer of Laboratory Hematology & Transfusion Medicine, Medical School, University of Patras, Patras, GR.

1997-2003: Assistant Professor of Laboratory Hematology & Transfusion Medicine, Medical School, University of Patras, Patras, GR.

2003-2009: Associate Professor of Laboratory Hematology & Transfusion Medicine, Division of Hematology, Dpt. of Internal Medicine, Medical School, University of Patras, Patras, GR.

Current appointment: Professor of Laboratory Hematology & Transfusion Medicine, Division of Hematology, Dpt. of Internal Medicine, Medical School, University of Patras, Patras, GR. Director of the Immunohematology Laboratory.

Teaching: (1) To medical students: Main courses: The analysis and interpretation of blood tests, the lymphopoietic system, the pathogenesis of autoimmune diseases. Elective courses: Introduction to Laboratory Hematology, Immunohematology.

(2) To post-graduate students (for a Master's degree): Main courses: Research methodology, analysis of the scientific literature, how to write scientific articles. Elective courses: Immunology-clinical/cellular/molecular.

Clinical duties: Responsible for the Laboratory of the Hellenic Center for Disease Control and Prevention (KEELPNO) in Patras, Greece. The laboratory measures the HIV viral load and performs HLA-B*5701 typing and genotypic analyses to determine drug-resistance and other mutations of individuals with established HIV-1 infection attending the Division of Infectious Diseases of the University Hospital, Patras, Greece. Responsible for the investigation of the prevalence of HIV-1 subtypes in southwestern Greece.

Administrative duties: Established the research laboratory of Immunohematology and participated in the setting and start-up of common research facilities of the Medical School, University of Patras. Member (1/5) of a committee appointed by the Health Ministry to design the application of molecular testing for viruses in the Blood Centers of Greece. Member (1/3) of a committee that runs the quality control of the post-graduate course "Biomedical Sciences" of the Medical School, University of Patras. Member of the General Assembly of the Medical School, University of Patras, for the acad. years 1995-96, 1998-99, 2001-02, 2006-07, 2011-12, 2015-19. Member (since 1995) of a committee that organizes and supervises the laboratory courses of the students of the Medical School, University of Patras. Head of the committee since 2009. Vice President of the post-graduate program Medicinal Chemistry & Biological Chemistry (Dpt. of Chemistry and Medical School, University of Patras) for acad. years 2018-19 and 2019-20. Member of electoral boards for the election of faculty in Hematology and Immunology in all Greek Universities and the Biomedical Research Foundation of the Academy of Athens, Athens, Greece.

Membership in **11** Scientific Societies. Founding member of the Hellenic Academy of Neuroimmunology.

Main research interests:

IL-2 & HIV-1:

We are studying the transcriptional regulation of the IL-2 gene and the virus HIV-1 by common trans-active factors in naive, memory and regulatory T helper lymphocytes, with emphasis on transcriptional silencers and genomic conflict.

Hypersensitivity: Autoimmunity & Transplantation:

- (1) Identification of putative errors in the transcriptional regulation of cytokine genes in T-cells from patients suffering from autoimmune diseases.
- (2) Use of therapeutic peptide analogs mapping to antigenic epitopes in immunotherapy of autoimmune diseases, targeting effector T-cells and regulatory T-cells.
- Generation of dendritic cell-driven tolerogenic lymphocytic responses by the use of MOG and MBP peptides for the development of personalized therapy in multiple sclerosis.
- (3) Role of leptin and its receptor in autoimmune diseases.
- (4) Effect of immunosuppressive drugs on regulatory T-cells and cytokines in transplant recipients.
- (5) Use of therapeutic peptides in transplantation.

Viral Immunology

Effect of novel therapeutic regimens on the immune response of HSV and HPV infections

Neoplasias:

- (1) Defining drug targets in multiple myeloma.
- (2) Role of leptin and its receptor in hematological malignancies.
- (3) Use of therapeutic peptides and dendritic cell-driven effector lymphocytic responses in immunotherapy of cancer.
- (4) Role of IL-2 transcriptional silencers in the pathogenesis of cancer.

Laboratory Medicine & Transfusion Medicine

- (1) Characterization of HIV-1 genetic strain diversity in experienced and naive AIDS patients in SW Greece.
- (2) Effect of molecular screening for viruses in blood donations.
- (3) Effect of blood transfusion on T regulatory cell populations of transfused patients undergoing elective orthopedic surgery.

Research grants - Recipient of 29 research grants (PI or co-PI). The total amount received by my laboratory from these grants = 1,253,996 €.

Supervisor of post-graduate students:

Supervisor in 16 Ph.D. Theses (12 completed), 40 MSc. theses (37 completed), 11 Diploma projects (completed). Participated in the examination committees of 53 Ph.D. theses and 16 MSc. theses.

Current members of research laboratory:

Post-doctoral scientists: 4

Post-graduate students: 7

Graduate students: 1

Scientific meetings - Participation in 114 international and national scientific meetings (invited in 78).

International Scientific Publications:

Papers: **112**

Editorials/Letters: **3**

Chapters in books: **3**

Abstracts: **137**

National Scientific Publications:

Papers: **5**

Chapters in books or proceedings volumes: **12**

Abstracts: **75**

Citations: **2,824** / h-index: **30** / i10 index: **64**
