

CURRICULUM VITAE

NAME: DIMITRIOS S GOUMENOS

DATE OF BIRTH: 18/06/58 (Athens-Greece)

MARITAL STATUS: Married

Two children

NATIONALITY: Greek

PROFESSIONAL QUALIFICATIONS:

1982: Graduation from Medical School-University of Athens Greece.

1983-1985: Obligatory service in the Greek Army and Rural Medicine

1985-1985: Training in Internal Medicine.

1987-1991: Training in Nephrology in the Department of Nephrology and Transplantation of Laikon General Hospital of Athens, Greece.

1992-1994: Clinical and Research Fellow in Sheffield Kidney Institute and Department of Renal Transplantation, University of Sheffield, Northern General Hospital, Sheffield UK. (Fellowship for further training in Nephrology and Renal Transplantation from 'Alexandros Onasis Foundation')

1994-1997: Clinical and Research Registrar in the Department of Internal Medicine of Athens University.

1997-2005: Assistant Professor in Nephrology, Department of Nephrology and Renal Transplantation, University Hospital of Patras, Greece.

2002- 2009: Regular Teacher and Lecturer on the University of Sheffield Masters in Nephrology Course

2005-2009: Associated Professor in Nephrology, Department of Nephrology and Renal Transplantation, University Hospital of Patras, Greece.

2009: Professor of Nephrology, Head of the Department of Nephrology and Renal Transplantation, University Hospital of Patras, Greece.

CERTIFICATION AND LICENSURE

1983: Full registration, Medical Council of Athens, Greece.

1991: Accreditation as specialist in Nephrology.

1992-1993: Fellowship for further training in Nephrology and Renal Transplantation from 'Alexandros Onasis Foundation'.

1993: Certificate of Sheffield Kidney Institute.

1993: MD Thesis from Medical School-University of Athens Greece.

CURRENT POSITION:

Professor of Nephrology, Head of the Department of Nephrology and Renal Transplantation, University Hospital of Patras, Greece.

MEMBERSHIP OF PROFESSIONAL SOCIETIES

Hellenic Society of Nephrology.

European Dialysis and Transplantation Association.

International Society of Nephrology.

RESEARCH INTEREST AND EXPERTISE

The study of the mechanisms underlying progressive renal failure and chronic allograft nephropathy and the factors influencing its progression, represent topics of specific interest. The research activity is concentrated on the management of patients with glomerulonephritis and on the mechanisms of progression of renal disease. In close contact with Sheffield Kidney Institute

over the last 15 years with ongoing research collaboration that has resulted in numerous publications.
