ΚΛΙΝΙΚΟ ΕΡΓΟ

Η Μονάδα Εντατικής Νοσηλείας Νεογνών (MENN) του Πανεπιστημιακού Γενικού Νοσοκομείου Πατρών διαθέτει 18 πλήρως ανεπτυγμένες κλίνες και παρέχει τριτοβάθμια νεογνολογική φροντίδα για την περιοχή της 6^{ης} ΥΠΕ που περιλαμβάνει την Πελοπόννησο, την Αιτωλοακαρνανία, την Ήπειρο και τα Ιόνια Νησιά. Με βάση στοιχεία της τελευταίας πενταετίας, ο αριθμός γεννήσεων κατ' έτος είναι περίπου 1000 και το τμήμα πραγματοποιεί περίπου 400 εισαγωγές. Συμμετέχω στο πρόγραμμα εφημεριών των ειδικευμένων νεογνολόγων της Μονάδας Εντατικής Νοσηλείας Νεογνών της Παιδιατρικής Κλινικής του Πανεπιστημίου Πατρών. Πραγματοποιώ τακτικές εκπαιδευτικές επισκέψεις και συντονίζω την πρωινή και μεσημεριανή αναφορά και παράδοση της MENN.

Η MENN του Νοσοκομείου King's College Hospital στο Λονδίνο, όπου εργάστηκα σαν Consultant σε καθεστώς πλήρους απασχόλησης για διάστημα 8 ετών, είναι μια τριτοβάθμια μονάδα που παρέχει παιδοχειρουργική κάλυψη για το Νοτιοανατολικό Λονδίνο και Νευροχειρουργική και Παιδοηπατολογική Κάλυψη για τη Νότια Αγγλία. Το τμήμα εξειδικεύεται στην φροντίδα νεογνών με σύνθετες παιδοχειρουργικές παθήσεις και νεογνών με γνωστές συγγενείς ανωμαλίες πολλές από τις οποίες έχουν αντιμετωπιστεί κατά την ενδομήτρια ζωή (δισχιδής ράχη, συγγενής διαφραγματοκήλη, συγγενείς ανωμαλίες των πνευμόνων, ύδρωπας, σύνδρομο μετάγγισης μεταξύ διδύμων κλπ). Ο αριθμός γεννήσεων κατ' έτος υπερβαίνει τις 10.000 και το τμήμα πραγματοποιεί περίπου 650 εισαγωγές κατ'έτος. Το τμήμα διαθέτει 12 κλίνες εντατικής θεραπείας, 12 αυξημένης φροντίδας, 12 ενδιάμεσης νοσηλείας και θάλαμο απομόνωσης 2 κλινών. Οι ερευνητικές δραστηριότητες στο τμήμα συντονίζονται από την Καθηγήτρια Anne Greenough. Το τμήμα το 2018 είχε την χαμηλότερη σταθμισμένη νεογνική θνησιμότητα μεταξύ όλων των τριτοβάθμιων παιδοχειρουργικών μονάδων στην Αγγλία.

Κατα τη διάρκεια της εκπαίδευσής μου, πριν, κατά και μετά την ειδικότητα έχω εργαστεί την Μονάδα Εντατικής Νοσηλείας Νεογνών κάνοντας αυτόνομες ιατρικές πράξεις και συντονίζοντας την ομάδα των ιατρών, νοσηλευτών και επαγγελματιών υγείας που παρέχουν τριτοβάθμια φροντίδα στα νεογνά της μονάδας.
